

**Please note our current Covid-19 guidelines (January 1, 2024)**

- \* Members should not attend any guild event if they have symptoms consistent with covid or have been exposed to covid within a week preceding the event.
- \* Consistent with CDC guidance, covid vaccinations and boosters are highly recommended for all members, especially those taking in-person classes and workshops.
- \* Currently, masks are encouraged but not required at gatherings such as guild meetings. Participants in smaller groups may decide as a group to follow more stringent guidelines.
- \* If a class or workshop instructor requires students to be masked and/or vaccinated, this will be stated in the registration information.
- \* Guild guidelines might change if conditions warrant, in which case updates will be shared.
