Guidelines

Technical Requirements

Strut Your Stuff will be presented online using Cvent technology that is similar to Zoom. Familiarity with using a web camera is recommended. We may ask for a test run to assist you with your presentation.

- **Lighting:** Ability to present from a well-lit space. We recommend a Ring light or something similar. If it's warm and the weather is clear, natural sunlight works well.
- **Technology:** You will need to have a webcam (via computer, laptop, tablet or smartphone).
- **The Art Work:** The art work must be something you made. When registering we will ask you to complete details about the piece for our announcer.
- **Model:** You will be modeling your own work for the show. Have fun with it. Allow yourself space to twirl and show your piece from every angle.
- **Facilities:** Your presentation should be able to be given from a space without interruptions (pets, children, television, etc.)

For assistance, please call (678) 730-0010 Monday-Friday, 12-5 PM EST.
